Before They're Old Enough To Bite!

**Use in:**
- Water gardens
- Flower pots • Bird baths

**Kills Mosquito Larvae That Transmit:**
- West Nile Virus • Encephalitis
- Malaria • Dengue Hemorrhagic Fever

**Treats up to 2178 sq. ft.**

**Active Ingredient:** Bacillus thuringiensis subspecies israelensis, solids, spores and insecticidal toxins

**2.66%**

**Other Ingredients:**
- 97.14%
- **Total:** 100.00%

**Potency:** 7,000 International Toxic Units (ITU) per mg of product (0.091 Billion ITU per pound of product). Potency units should not be used to adjust rates beyond those specified in the Direction for Use Section.

**Storage and Disposal:**
- Do not contaminate water, food or feed by storage or disposal.
- Do not store in direct sunlight or heat.
- Keep out of reach of children.

**Pesticide Disposal and Container Handling:**
- Non-refillable, non-recyclable. Do not re-use or refill container. Place in trash or offer for recycling, if available. Batch code on container.
- If Partly Filled, contact your local solid waste agency or 1-800-CLEANUP for disposal instructions.

**General Information:**
- MOSQUITO BITS® is a highly selective microbial insecticide effective against mosquitoes in a variety of habitats. When applied uniformly over the surface of containerized water, the BITS release a biological mosquito larvicide at the water’s surface. This larvicide gradually settles in the water where it is eaten by mosquito larvae growing there. MOSQUITO BITS® may be used in all types of containerized standing water sites where mosquito larvae grow.
- The BITS will give a kill within 24 hours. For more residual long term control please consider the use of MOSQUITO DUNKS® after applying MOSQUITO BITS®. Employ a seven to fourteen day interval between applications.

**Directions for Use:**
- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- **Outdoor Use Around the Household**
  - Sprinkle one teaspoon per 25 square feet or one tablespoon per 75 square feet (1/2 lb. per 2178 square feet) over the surface of the containerized standing water found around the home. MOSQUITO BITS® should be applied uniformly. A seven to fourteen day interval between applications should be employed. Longer periods of mosquito suppression will be obtained with the subsequent use of MOSQUITO DUNKS®.
- MOSQUITO BITS® can be applied to areas that contain aquatic life, fish and plants. Can be applied to areas used by or in contact with humans, animals, horses, livestock, pets, birds or wildlife. DO NOT APPLY to finished, treated human drinking water sources.
- **Apply to Containerized Standing Water Found Near the House, Such As:**
  - Water gardens
  - Flower pots
  - Bird baths
  - Tree holes
  - Unused swimming pools
  - Rain barrels
  - Old automobile tires
  - Roof gutters
  - Animal watering troughs
