Material Safety Data Sheet

Summit Super Permacide® II

This Material Safety Data Sheet (MSDS) serves different purposes than and DOES NOT REPLACE OR MODIFY THE EPA-APPROVED PRODUCT LABELING (attached to product container). This MSDS provides important health, safety, and environmental information for employers, employees, emergency responders and others handling large quantities of the product in activities generally other than product use, while the labeling provides that information specifically for product use in the ordinary course.

Use, storage and disposal of pesticide products is regulated by the EPA under the authority of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) through the product labeling. All necessary and appropriate precautionary, use, storage, and disposal information is set forth on that labeling. It is a violation of federal law to use a pesticide product in any manner not prescribed on the EPA-approved label.

### SECTION 3: HAZARDS IDENTIFICATION

#### EMERGENCY OVERVIEW

**CAUTION:**
- HARMFUL IF SWALLOWED OR ABSORBED THROUGH SKIN
- EYE IRRITANT
- TOXIC TO FISH AND AQUATIC INVETEBRATES
POTENTIAL HEALTH EFFECTS

Acute Toxicity (Primary Routes of Exposure): Inhalation, eye and skin contact

Signs and Symptoms of Systemic Effects: May cause gastrointestinal effects such as nausea, vomiting and diarrhea. Based on animal studies, symptoms of overexposure to this product include diarrhea, yellow nasal discharge and activity decrease. Ingestion or inhalation of large quantities can cause respiratory tract and eye irritation as well as nervous system effects such as dizziness, loss of coordination, tremors and loss of consciousness.

**Eye:** Moderately irritating.

**Skin:** Moderately irritating. Prolonged or repeated contact may result in allergic reactions contact dermatitis which is characterized by dryness, chapping and reddening.

**Ingestion:** Harmful if swallowed. Ingestions of small quantities are usually nonfatal unless aspiration occurs. If aspiration occurs during ingestion or vomiting may cause mild to severe pulmonary injury, possibly progressing to death.

**Inhalation:** Harmful if inhaled.

SECTION 4: FIRST AID MEASURES

**EMERGENCY NUMBER**

Within the United States (800) 424-9300

Outside the United States (800) 424-9300

**EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses. If present, after the first 5 minutes then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**SKIN:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**INGESTION:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**INHALATION:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

**NOTES TO PHYSICIAN:** Contains petroleum distillate – vomiting may cause aspiration pneumonia.

**HINTS FOR THE PHYSICIAN:** This product contains a Pyrethroid. If a small amount is ingested (or if treatment is delayed) oral administration of large amounts of activated charcoal and a cathartic is probably sufficient therapy.

Do not administer milk, cream or other substances containing vegetable or animal fats, which enhance the absorption of lipophilic substances.
